Janriz Cuevas

Bacoor City, Cavite | 0926 707 9959 | janrizbrielle@gmail.com | janriz.site

PROFESSIONAL SUMMARY

IT graduate specializing in Web and Mobile Development with hands-on experience building responsive applications, optimizing front-end performance, and managing software components. Proven capability to design robust web systems using React, JavaScript, PHP, and SQL, supported by a valuable background in enterprise platform automation and workflow customization using ServiceNow and Power Automate.

PROFESSIONAL EXPERIENCE

DFI Retail Group *Hybrid / Onsite*
ServiceNow Developer Intern *May 2026 – Present*

- Executed large-scale documentation migration and metadata restructuring to centralize enterprise knowledge bases across multiple regional retail banners.
- Delivered Tier-1 and Tier-2 service desk support for international retail operations, resolving complex access requests, locked accounts, and technical incidents.
- Engineered automated business logic and in-platform UI scripts, including dynamic form auto-population, streamlining user intake workflows.

Spiralytics, Inc. *Remote*
WordPress Developer Intern *January 2026 – April 2026*

- Engineered responsive, high-performance web components from scratch to modernize legacy interfaces and enhance user experience.
- Tracked and resolved platform bugs and feature additions within an Agile environment using Jira for technical documentation.
- Collaborated closely with senior engineers in sprint standups to unblock deliverables and maintain strict project timelines.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, Python, Java, SQL (Oracle, MySQL), HTML5, CSS3
Frameworks & Libraries: React, Vite, Tailwind CSS
Tools & Databases: Git/GitHub, Supabase, WordPress, Jira, Linux, Jupyter Notebook
Enterprise Platforms: ServiceNow (Scripting, Forms, Workflows), Microsoft Power Automate
Core Competencies: Full-Stack Development, Web & Mobile Apps, Manual QA Testing, Agile/Scrum

RELEVANT PROJECTS

Personal Portfolio *Lead Developer*

- Developed a fully responsive web application using React and Vite, integrating AI-assisted workflows to optimize code quality.
- Architected and executed the end-to-end deployment pipeline, managing version control via Git, hosting infrastructure, and custom domain setup.

FITBEAT: Healthcare Web & Mobile App *Project Manager / QA*

- Directed cross-functional development timelines and task delegation for a 5-person team, aligning project deliverables with client specifications.
- Spearheaded comprehensive manual QA testing protocols to identify, log, and resolve functional bugs and UI inconsistencies prior to final presentation.

Roamly: AI Travel Planning Web Application *Lead Developer*

- Developed an AI-driven travel planning platform integrating the Gemini API for dynamic itinerary generation and Aviationstack for live flight tracking.
- Configured a scalable backend using Supabase for secure data management, user authentication, and real-time trip cloning capabilities.

EDUCATION

FEU Institute of Technology *Sampaloc, Manila*
BS in Information Technology (Web & Mobile Applications) *Graduated September 2026*

CERTIFICATIONS

- **Cisco:** Cisco Certified Support Technician (CCST) Cybersecurity
- **IT Specialist:** HTML & CSS | Networking
- **CCNA:** Introduction to Networking | Linux Essentials
- **PMI:** Project Management Ready
