PROFESSIONAL SUMMARY

Final-year IT student at FEU Tech specializing in Web and Mobile Development with hands-on experience in enterprise platform customization, automated workflows, and front-end development. Proven ability to streamline operations using ServiceNow, Power Automate, and web tech, backed by a strong foundation in SQL, Python, and cybersecurity principles.

PROFESSIONAL EXPERIENCE

DFI Retail Group *Hybrid / Onsite*
ServiceNow Developer Intern *May 2026 – Present*

- Migrated hundreds of knowledge base articles during DFI's initiative to centralize documentation across all retail banners.
- Provided Tier-1/2 ServiceNow service desk support to Hong Kong regional store users, resolving access requests, locked accounts, and administrative tickets.
- Streamlined workflows using Microsoft Power Automate and built ServiceNow in-platform automations, including form auto-population and UI form updates.

Spiralytics, Inc. *Remote*
WordPress Developer Intern *January 2026 – April 2026*

- Modernizing legacy web pages by developing responsive components from scratch to improve site performance and UX.
- Managing tasks and technical documentation via Jira, ensuring all bugs and features are tracked and resolved.
- Engaging in weekly Agile standups to coordinate with senior developers on project blockers and delivery timelines.
- Gaining exposure to Google Analytics to monitor post-deployment site health and understand user behavior trends.

TECHNICAL SKILLS

Platforms & Automation: ServiceNow (Scripting, Forms, Workflows), Microsoft Power Automate
Languages: JavaScript, PHP, SQL (Oracle, MySQL), Python, Java, HTML5, CSS3
Tools & Frameworks: WordPress, Git/GitHub, Tailwind CSS, Jira, Jupyter Notebook, Google Analytics, Linux
Core Competencies: Process Automation, Web & Mobile Development, Manual QA Testing, Agile/Scrum

RELEVANT PROJECTS

Personal Portfolio *Lead Developer*

- Developed a responsive site using React and Vite with an AI-assisted workflow to optimize code efficiency.
- Managed the full deployment pipeline including Git version control, hosting, and domain configuration.

FITBEAT – Healthcare Web & Mobile App *Project Manager / QA*

- Orchestrated timelines and task allocation for a 5-person team, ensuring project requirements were successfully validated.
- Performed Manual QA Testing to identify functional bugs and UI inconsistencies prior to final presentation.

Estancia Hotel Reservation System *Lead Developer*

- Developed a full-stack reservation system utilizing PHP and MySQL, focusing on secure data handling and transaction logs.
- Managed the migration from local environments to live production hosting, resolving configuration and server-side issues.

EDUCATION

FEU Institute of Technology *Sampaloc, Manila*
BS in Information Technology (Web & Mobile Applications) *Expected September 2026*

CERTIFICATIONS

- **Cisco:** Cisco Certified Support Technician (CCST) Cybersecurity
- **IT Specialist:** HTML & CSS | Networking
- **CCNA:** Introduction to Networking | Linux Essentials
- **PMI:** Project Management Ready
